

NOVEMBER 2022

The Foundation was established in 2022 by the People's Hero of Ukraine and defender of Donetsk airport in 2014 - Oleksandr Tereshchenko, who lost his hands and the opportunity to keep a weapon to defend his country but continues to do what he can to bring our victory closer.

The work of the Foundation is aimed at systematic, targeted, and high-tech assistance for the units of the Armed Forces of Ukraine during the fighting on the territory of Ukraine. After the victory, the Foundation will focus on helping our defenders who have been seriously physically and mentally wounded to get back to normal life.
