“Life after war ”

From September 4 to 18, the Western Rehabilitation and Sports Center of the National Center of Sports and Recreation of Ukraine hosted the third rehabilitation camp "Life After War" for veterans who have lost their sight. 7 stalwart defenders of Ukraine began their journey of returning to an active, maximally independent life. Another 2 underwent rehabilitation again to consolidate the skills they had previously acquired.

A team of experienced trainers from the “Contemporary View”, most of whom have significant visual impairments, selflessly taught the guys to navigate in space, restore social interaction skills and household independence, master the phone and computer using screen access programs, Braille, etc. To restore motor activity, the rehabilitation program included daily morning exercises, massage, Nordic walking, football, and training in the gym and rehabilitation room. Their family members received psychological support, theoretical knowledge and practical skills on the rules of accompanying the blind, household services, and legal advice.

The Foundation's financial obligations for this stage of rehabilitation amounted to **€13,878.74** and were fulfilled in full.

We sincerely thank the Foundation's donors, thanks to whom we continue to prove that #Life_after_the_war_must_go_on

GRATITUDE

I am sincerely grateful to everyone, regardless of the amount of the contribution, who continues to support my people in the fight for freedom and independence!

Thanks to you, in September we held the third course of social rehabilitation for veterans who lost their eyesight while defending Ukraine. Seven more Ukrainian defenders were given the opportunity to start their way to an active, independent life. Two of them improved their knowledge and skills gained during previous camps.

Together with you, we continue to prove that life after war must go on.

Every donation, even a small one, can make a big difference!
