## “Life after the war”

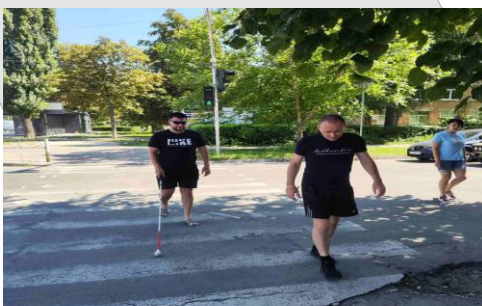

We want our project to go beyond two-week rehabilitation camps to be continuous and effective. Gaining basic knowledge and skills of orientation in space and social life is necessary and extremely important, but it is equally important to be able to apply them where you live.

That is why, as part of the Life After War project, we have been working with mobile interdisciplinary teams since August. A team of 2-3 coaches travels to veterans who lost their eyesight while defending Ukraine and who have completed a basic social rehabilitation course. For 2-3 days, the coaches will help blind veterans apply their previously acquired skills in orientation and mobility, social and household orientation, use of public places at their place of residence, and explore the infrastructure of their area.

This month we paid for the work of the mobile interdisciplinary teams in September and October. The amount of payment was **2000€**.

We sincerely thank the Foundation's donors, thanks to whom we continue to prove that [#Life\\_after\\_the\\_war\\_must\\_go\\_on](#)

# ASSISTANCE

We are sincerely grateful for your in-kind support in October:

To the tireless **Vidmantas Petrukaitis**, **Wild Bees Lietuva** and **Alyona Timonina** for the shanks of the hellish "gifts" our Defenders regularly pour into the enemy's "behind the collar" from attack drones. This time, the fighters of the Mykolaiv TRO Brigade are once again expressing their gratitude;

To the team of the volunteer brand "**Mušk maskvėnų sotas**" ("Beat the muscovite with food") led by **Rimantė Stėpienė** for the food packages for the Mykolaiv brigade of the TRO. Prompt delivery to Ukraine was made by **#daiktaifrontui**

Lithuanian "**Forest Brothers**" for their extremely important assistance (which we will tell you about after the victory) to one of the units of the Armed Forces of Ukraine;

## GRATITUDE

I am sincerely grateful to everyone, regardless of the amount of the contribution, who never tires of supporting my people in their fight for freedom and independence!

Thanks to you, in October, we funded the work of mobile interdisciplinary teams that visited veterans who lost their eyesight while defending Ukraine at their place of residence. This is an extremely important stage of the Life After War project, which we launched in August. It will help our project participants improve their previously acquired skills in spatial orientation, mobility, and social orientation and actively apply them in their daily lives.

Together with you, we continue to prove that life after war must go on.

Every donation, even a small one, can make a big difference!
