GRATITUDE

I sincerely thank everyone, regardless of the amount of the contribution, who never tires of supporting the Foundation's projects aimed at helping the Ukrainian people in their fight against the Russian invasion.

Thanks to your donations, in November we sent another Iron Hawk to the front line, which will be used for universal purposes, including evacuation of wounded Ukrainian defenders

Thanks to you, we have sent to the front line inverter generators, which are essential for the smooth operation of our UAVs. We have also paid for and are waiting for the delivery of a powerful diesel generator to charge heavy drones

In total, in November, we purchased more than €14,000 worth of equipment for the needs of the Armed Forces of Ukraine. This is one of the best results of the fund over the two years of its operation.

We continue to rely on your trust and assistance, as the war continues and the enemy continues to try to break the will of the Ukrainian people in their quest for freedom and independence.

Every donation, even a small one, can make a big difference!
